DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-14 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claim 1 and dependent claims thereof are allowable primarily because of the inclusion of the limitation "a control unit, to determine if color data is present in the image data stored in the memory regions, and to drive a developing device of color toner that corresponds to the memory region containing the color data".

Claim 4 and dependent claims thereof are allowable primarily because of the inclusion of the limitation "driving only developing devices that correspond to memory regions that contain stored color image data"

Claim 5 and dependent claims thereof are allowable primarily because of the limitation "wherein, during a printing operation, only the developing devices corresponding to color data memory regions that contain color data images are driven"

Claim 13 and dependent claims thereof are allowable for the inclusion of the limitation "if there are color data existing in the image data stored in the memory regions for the purpose of color image developing, driving a developing device of color toner that corresponds to the memory region containing the color data to feed the color toner"

By selectively driving the developing device containing a color developer corresponding to the memory region where color data exist, printing speed is improved. Furthermore, since the

developing devices which are not assigned with the developing job are not driven, the life span of the apparatus is prolonged.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
